Notes

- The start and end dates of the exposure months are on **Wednesdays** and exposure periods still consist of 4 or 5 whole weeks, i.e. 28 or 35 days.
- Tubes should be changed on the specified date. If not tubes may be changed within ± 2 days of the due date.
- When entering data into the Web Based Data Entry System, please enter the exact exposure dates (on/off) if different from those detailed above by more than ± 2 days.
- The Web Based Data Entry System can accept data from exposure periods other than those above, but data will not be eligible for inclusion in the Air Quality Archive.
- Please keep a record of site irregularities that may occur in monitoring, for example, building work, changes in traffic flow, etc. This information may be helpful in explaining any unusual results.
